

Directory of Clinicians

The Guthy-Jackson Charitable Foundation is “Connecting the Docs” by compiling a worldwide list of clinicians who treat NMO.

Directory of Clinicians “Connect the Docs”

With NMO being a rare orphan disease, simply finding a clinician who treats NMO can be difficult. To help patients find NMO clinicians, The Guthy-Jackson Charitable Foundation is “Connecting the Docs” by listing known clinicians who treat NMO. On the foundation’s website you will find a map with locations of NMO clinicians. Thus far, **over 200 clinicians** have been mapped all over the world and our list continues to grow.

The following pages contain an abbreviated list of “**Connect the Docs.**” If you receive treatment from or know of an NMO clinician(s) who you do not see in this list, please visit our website to find out if the clinician(s) is on our online map. If you would like to “connect a doc” by submitting information about a clinician who treats **NMO please visit our web page at:**
